1 INTRODUCTION

1.1 REASON FOR CHANGE

ELATEC products are certified in numerous regions. It is important to distinguish between readers with housing and readers without housing. In many regions, each version needs a dedicated certification. As a result, each version needs a certification name which can be explicitly assigned to a product. ELATEC decided to include the letter “M” in the certification name for readers without housing. The “M” stands for module. The new name convention will be introduced to the TWN4 Palon product family.

1.2 REVISION HISTORY

VERSION	CHANGE DESCRIPTION	EDITION
01	First edition	06/2021

2 CHANGE DESCRIPTION

The name convention of the TWN4 Palon family is explained in the chart below. The full name of a Palon device can be divided in six parts, which are usually lined up to one another. A possible name is i.e., TWN4 Palon Compact M Light.

PART OF THE NAME	POSSIBILITIES	MEANING	COMMENT
1 st	TWN4	Technology	-
2 nd	Palon	Product family	-
3 rd	Compact	Product line	-
4 th	LEGIC -	Radio frequency frontend	If LEGIC is included in the name, a LEGIC frontend is used; in case nothing is written in part 4, a NXP frontend is used
5 th	M Wall Panel	Housing	“M” stands for module; no housing is included in this case

6 th	Light -	Variant	In case nothing is written in part 6, the name refers to the standard variant. The "Light" variant is usually a variant with less functions or features than the standard variant.
-----------------	------------	---------	--

The resulting name of each product is considered as the certification name, which is printed on the label of the product.

3 PARTS AND PRODUCTS AFFECTED
