

Bracket holder

Mounting solution for TWN3 and TWN4 MultiTech desktop readers

Bracket holder
(exemplary illustrations)

The ELATEC product portfolio also contains a wide range of accessories, like wall holders, additional cables or RFID antennas, that are perfectly suited for use with the different ELATEC devices. As part of the accessory portfolio, ELATEC offers different types of holder mounting kits to attach their devices to flat surfaces, for instance bracket and snap-in holders. Both allow right- and left-side mounting of a reader depending on application requirements.

The bracket holder is a simple solution for attaching an RFID reader to a flat surface. Available in two different colors, it consists of one ground plate and two brackets with screws and a double-sided strong adhesive pad. For optional additional screwing, an extra hole is located on the base plate.

Special features:

- + Compatible with all ELATEC RFID desktop readers of the TWN3 and TWN4 MultiTech families
- + Two mounting options (adhesive pad or screws) for more flexibility

TECHNICAL DATA

HOLDER	Material: ABS Color: black (RAL9005) or white (RAL9002)	
DIMENSIONS (L X W)	Approx. 130.00 x 50.00 mm / 5.12 x 1.97 inch
